SUMMARY

Motivated Computer Science student (B.Sc. CSIT) with hands-on experience building full-stack web applications and data management systems. Proficient in JavaScript, Python, Java, C/C++, HTML/CSS, and MySQL. Passionate about writing clean, efficient code and solving challenging problems. Seeking a software engineering opportunity to apply and grow technical skills in a high-impact environment.

EDUCATION

Ambition College <i>Bachelor of Science in Computer Science and Information Technology (B.Sc. CSIT)</i> • Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Web Technologies, Computer Networks	Kathmandu, Nepal Sep 2024 – Present
Trinity International College <i>Higher Secondary Education (+2) – Science</i> • Physics, Chemistry, Mathematics, Computer Science	Kathmandu, Nepal Apr 2022 – Apr 2024

PROJECTS

Student Management System <i>Java, HTML, CSS, MySQL</i> • Designed and developed a full-stack application to manage student records including enrollment, grades, and attendance tracking for academic institutions • Implemented CRUD operations with a relational MySQL database backend, reducing manual record-keeping effort by enabling structured data queries • Built an intuitive HTML/CSS frontend interface allowing administrators to add, search, update, and delete student records efficiently • Applied object-oriented programming principles in Java to ensure modularity, code reuse, and maintainability of the system	2024
Responsive Portfolio Website <i>HTML, CSS, JavaScript</i> • Designed and deployed a fully responsive personal portfolio website optimized for mobile, tablet, and desktop viewports using CSS Flexbox and Grid • Implemented interactive UI components using vanilla JavaScript including smooth scrolling navigation and dynamic content rendering • Focused on accessibility and cross-browser compatibility to ensure a consistent user experience across all major browsers	2024
Full-Stack Web Application <i>HTML, CSS, JavaScript</i> • Architected and built a complete full-stack web application handling both client-side interactivity and server-side data processing • Implemented dynamic content updates and DOM manipulation using JavaScript, improving page responsiveness and user engagement • Structured codebase following separation of concerns principles to maintain clean, readable, and scalable code	2024

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, C++, SQL
Web Technologies: HTML5, CSS3, Responsive Design, DOM Manipulation
Databases: MySQL (Schema Design, CRUD Operations, Queries)
Concepts: Object-Oriented Programming (OOP), Data Structures, Algorithms, Version Control (Git), REST APIs
Tools & Platforms: Git, GitHub, VS Code, IntelliJ IDEA, Linux/Unix
Languages (Human): Nepali (Native), English (Professional), Hindi (Conversational)
